

## 4 and 6-way P-Pack plastic data boxes

(Image shows P-Pack 0/4)

- 6C data cut-outs
- 25mm gland hole
- Easy installation
- Installer friendly
- Tough ABS plastic construction
- End cap allows screw fixing
- Low profile
- Space for ID labelling

When cost may be the key to win a project, the P-Pack plastic data box delivered without compromise to strength and suitability.

4 and 6-way data boxes are volume installation products bringing data points to the desk from the sub floor using flexible conduits, normally via a floor access grommet.

### Standard PF Box units
