- Any cable length
- 1.5mm, 2.5mm and 4mm cable
- UK or Schuko power sockets
- Wieland Plugs and sockets
- 16A or 32A commando plugs
- Digital amp meter

PowerData Technologies can make any PDU to the client's needs, using a wide range of modular components. The top image shows a PDU with 4 x C13 sockets, 1 x 90° UK socket, 1 x 135° UK socket, 1 x Type E French socket, 1 x IEC C19 socket, with surge protection and a neon indicator.

Choose the orientation (vertical or horizontal) socket style(s) switch or neon, lead length and plug, we can convert this into a specification to quote before manufacture.

The image below shows a PDU with a C20 inlet mounted on the PDU.
