

PDU's with surge protection

Picture shows 12 way horizontal IEC PDU

Surge protection protects vital equipment from low-frequency, high-voltage spikes of electricity. By either blocking the spike, or shorting it to ground, the surge protector keeps any unwanted voltages above a safe threshold.

Product Description

HIEC/6F	Horizontal 6-way C13 PDU, with surge protection to 3-metre lead
HIEC/12F	Horizontal 12-way C13 PDU, with surge protection to 3-metre lead
H13A/4F	Horizontal 4-way UK PDU, with surge protection to 3-metre lead
H13A/5F	Horizontal 5-way UK PDU, with surge protection to 3-metre lead
H13A/6F	Horizontal 6-way UK PDU, with surge protection to 3-metre lead
V13A/6F	Vertical 6-way UK PDU, with surge protection to 3-metre lead
V13A/8F	Vertical 8-way UK PDU, with surge protection to 3-metre lead
V13A/10F	Vertical 10-way UK PDU, with surge protection to 3-metre lead
V13A/12F	Vertical 12-way UK PDU, with surge protection to 3-metre lead

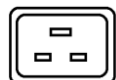

PDU options

IEC C14 plug
IEC 60320(320)

16A commando plug
IEC 60309(309)

IEC C20 plug
IEC 60320(320)

Surge protector technical data

Voltage	240 V
Current	16A
Protection	430 V @ 1mA
Response Time	< 25nS
Max Surge	6500A
Clamping Voltage	775V
