

Schuko and French Socket PDUs

Picture shows 8 way horizontal Schuko PDU

- Horizontal 1.5U and vertical option
- French / Benelux type E sockets
- German Schuko type F sockets
- Shrouded switch with switch cover
- 3-metre 1.5mm lead to universal Schuko plug (French and German as above)

Multinational business often means repeated IT infrastructure in different overseas locations, and so socket types other than standard UK or IEC sockets are often used.

Standard and custom Schuko or French socket PDU's in vertical or horizontal styles in various plug options are available on request.
