Product Datasheet
# PD VERTICAL KITCHEN UNIT

## Product Description

The PD Vertical Kitchen unit is an IP 54 rated splash proof unit designed to be used in a Kitchen environment.
Pulling up out of the worktop, the unit provides power and USB where needed, and can be stowed away when not in use.
The dual USB module is ideal for charging phones and tablets, whilst the UK sockets can handle more power-hungry kitchen appliances.

The PD Kitchen is hardwired with a 2m lead to UK plug, and fits into a standard 80mm grommet hole.
