

Power Grommet

An in-desk cable grommet with a fused UK socket, and USB chargers, with a data transfer option

The in-desk Power Grommet is a complementary addition to any desktop. It consists of a single fused UK socket, and a three fast charging USB.

The Power Grommet fits a standard 80mm grommet hole, and represents an incredibly efficient use of wasted space. It locks securely into position by means of a locking collar, making installation incredibly quick and easy.

Powered by a GST18 connector, the Power Grommet is compatible with Start or Interconnect leads.

Standard Units

P-GROM/80	Black 80mm UK Power Grommet with 3x 2.1A USB chargers
P-GROM/80/DT	Black 80mm UK Power Grommet with 3x 2.1A USB chargers with data transfer

Technical Information

Desk cut-out diameter	80mm
USB charger	5V 2.4A fast charge, BC1.2
USB speed (data transfer unit only)	USB 2.0
Input	16A GST18
Input cable length	500mm
USB cable length (data transfer unit only)	1.2m
Fuse rating	5A
Voltage	100-240VAC
Input	16A GST18
Protection	Over-current / over-voltage / anti-short
Above desk clearance	~2mm
Below desk clearance	60mm
Usable desk depths	20mm-70mm
